Operating environment and operating procedures

Required operating system

To review SEIKATSU TEITEN 2024 Tabulation, you are required the operating system below.

OS	Microsoft 10 (Japanese version)
Software	Microsoft Excel 2013, 2016, 2019 (Japanese version)
Hardware	512M byte or more free space

Note when opening Excel file

Since SEIKATSU TEITEN 2024 Tabulation contains a macro (a program for creating chronological chart), please enable macro before using.

On top of the message bar (above the formula bar), the security alert below will appear in Japanese.
Click “コンテンツの有効化 (Enable Content)” to use.

View of tabulation [Top page]

Field of questions

If you click on the field of questions (blue text), it will jump to the questions of each field. If you point to the red triangle mark, the questions will be shown.

Search by Keyword

You can search the questions freely. By entering the space between the keywords, you can narrow down the questions that are related to both keywords.

User Manual, Research Outline, Questionnaire

Will show the PDF files of each. (However, it is required that the tabulation and PDF files are in the same folder.)

Show all questions

All items of the survey, across 21 categories, can be understood.

Index for questions

It will show the questions that are related to the selected field, searched keyword or the sample question.

Unique sample questions of "SEIKATSU TEITEN"

If you click on the sample questions (blue text), it will jump to the questions that include the question you choose.

Click each tab to view survey data by data classification (overall, by gender, by age group, by age group and gender, by area, by gender and area)

The screenshot displays the top page of the 'SEIKATSU TEITEN' (生活定点) website. At the top, the title '生活定点 1992-2024' is prominently displayed, followed by the subtitle 'CHRONOLOGICAL LIFESTYLE SURVEY ON THE JAPANESE PEOPLE'. Below this, there are three main navigation sections: 'Field of questions', 'Search by Keyword', and 'User Manual, Research Outline, Questionnaire'. The 'Field of questions' section lists 21 categories, each with a red triangle icon indicating that questions are available for that category. The 'Search by Keyword' section features a search bar and a 'Search' button. The 'User Manual, Research Outline, Questionnaire' section provides links to PDF files for each document. Below these sections, there is a 'Unique sample questions of "SEIKATSU TEITEN"' section, which lists several sample questions. At the bottom of the page, there is a 'Show all questions' link and a navigation bar with tabs for 'TOP', 'INDEX', 'Total', 'Male', 'Female', '20's', '30's', '40's', '50's', '60's', 'Male 20's', 'Male 30's', 'Male 40's', 'Male 50's', and 'Male 60'.

It will show the selected target group.
The sample below is when selected
Male 30's.

Create chart
*Please refer to
page 6

Response rate
The response rate for each survey, carried out every two years from 1992 to 2024, is listed. The [—] mark in the data field indicates that item was not asked during that particular year.

Difference compared to Total

The difference of between total and the latest 2024 data by gender, age, and area, etc. is listed. Items in which there are differences of +/- 5points or more from the total are highlighted and put a symbol.

Trend within 2 years

The numerical changes between the 2022 and the latest 2024 survey are listed. Items in which there are differences of +/- 3points or more are highlighted and put a symbol.

Trend within 10 years / 20 years / 30 years

Trend within 10 years is the difference between 2014 and 2024.
Trend within 20 years is the difference between 2004 and 2024.
Trend within 30 years is the difference between 1994 and 2024.
The differences with more than +/- 5points are highlighted and put a symbol. Also described as "Max" when 2024 is the highest within past 10 years / 20 years / 30 years. Likewise described as "Min" when 2024 is the lowest within past 10 years / 20 years / 30 years.

Trends within every 2 years

The difference between the response rates of each survey and the response rate of the survey 2 years prior is listed. Differences of +/- 3points or more are highlighted and put a symbol.

Rules and considerations when using this data

SEIKATSU TEITEN 2024 Tabulation

- All response rates (%) are rounded to two decimals and are displayed to one decimal point.
- For items only asked to certain respondents, the target respondents are displayed in parentheses (e.g.. [those who have occupation], [those who are married], etc.)
- The [—] mark in the data field indicates that item was not asked during that particular year.

Copyright

- Hakuodo Inc. reserves all rights, including copyright, etc., pertaining to all information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc.
- Users may display, replicate, publish, and print this information.
- However, users may not alter any of the information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the question wording of the questionnaire, etc..
- If using this data, always specify [Hakuodo Institute of Life and Living “Seikatsu Teiten”] as the source.

Limitation of liability and warranty

- Users shall use all information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc. at their own risk.
- Hakuodo Institute of Life and Living assumes no responsibility for any damage arising as a result of information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc. obtained by users.
- Hakuodo Institute of Life and Living may change, in whole or in part, any information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc. without providing prior notice to users. Please note that this should not be taken as a promise to update information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc. Hakuodo Institute of Life and Living may also temporarily suspend or discontinue the provision of any information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc.
- Users may be unable to use information included in “Seikatsu Teiten” such as the tabulation (including the chronological graphing program), and the questionnaire, etc. normally as a result of their computer environment or for other reasons.
